FAMILY WINE MERCHANTS SINCE 1906

Specification	
Vinification	Now sourced from three vineyards, two at Coriole and one at the base of the foothills, the Nero wines have really established themselves. The fruit is handpicked, then destemmed resulting in whole berries. These are then cold soaked for four days before they are brought back to temperature and allowed to ferment naturally. The must is over seeded with yeasts chosed to lift the natural aromatics of the variety. After a brief spell in seasoned oak, the wine is bottled at about 6 months of age. No mains water is used, all water on the property is recycled, rain and bore. Viticulture and winemaking processes are achieved with minimal intervention, with a move to organic viticulture in place.

The original farmhouses were built in 1860 and are now the epicentre of the garden and cellar door at the winery. The original vineyards were planted immediately after the first world war. Shiraz is the great tradition of McLaren Vale going back over 150 years, and is the major variety planted on the estate.
