Specification	
Vinification	Riesling fruit. After careful clarification, fermentation takes place under controlled temperatures, in stainless steel tanks, to maintain the wine's vibrant aromas and precise varietal expression. The wine is fermented completely dry, allowing the natural character of the vineyards and the Riesling grape variety to take centre stage. Maturation on fine lees adds subtle texture, complexity and depth while preserving the wine's freshness and mineral-driven character. Minimal intervention during the winemaking process ensures a clear and authentic expression of Rheinhessen terroir.

Located in the heart of Kiedrich, a village first documented in the year 950, Kiedrich Turmberg and Kiedrich Gräfenberg, the estate's top vineyards, are among the finest sites in the Rheingau. The estate cultivates 90 hectares (222 acres) of vineyards, of which 100 percent are planted with Riesling. Today, Wilhelm Weil, the great-grandson of the estate's founder, carries on the tradition of uncompromising, quality-oriented vineyard and cellar practices – a tradition that has been the hallmark of the winery for four generations.
