Specification	
Vinification	The unique gravity flow winery enabled the grapes to be gently destemmed directly into open-top fermenters without pumping, retaining 25% as whole clusters. Traditional fermentation with a moderately long maceration on skins has extracted good colour and tannin with considerable depth of flavour. This wine was aged for 13 months in 25% new French oak barrels from artisan Burgundian coopers. In accordance with our non-interventionalist approach to winemaking, this wine was fermented with indigenous yeast and malolactic, and was not fined or filtered.
