Specification

Vinification

Hand harvested grapes after a cool and long growing season giving this unique dry wine great finesse and unequalled intensity. The grapes are taken in small tubs to the press which are filled by gravity without any pumping or other mechanical intervention. They are then fermented in temperature-controlled barrels or vats (at 18 degrees centigrade - 24 DC).

Producer Overview

Winegrowing ancestors since 1639. The first traces of the Hugel family in Alsace can be traced back to the XVth century. The next generation is faithfully implementing the major principles it has inherited from its ancestors. A noble mission awaits Jean-Philippe, Marc and Etienne : to make Alsace wine the great white wine of the XX1st century with the help of the 13th generation of Hugel in the form of three cousins; Jean Frédéric, Marc André and Christian Hugel.
