HOUSE OF TOWNEND

That Boutique-y Whisky Company Glentauchers 17 Year Old Whisky

Price	£66.99
Code	BOUT025

How times have changed. Glentauchers like to keep things very traditional, not using computers to make their whisky. However, back in the day, the Glentauchers distillery was interested in experimenting in new ways to distil malt whiskies, which led to their foray into ‘silent malt’ (the process of making malt whisky in column stills). This trend happily didn't catch on and pot stills are used to this day by Scotch whisky distilleries to make their malt whisky. As you can see from the label, showing the exact moment Glentauchers decided to try out ‘silent malt’ production, obscene amounts of facial hair was popular back then too. Some things never change.

Tasting Notes:

Aromas of strawberries and cream, custard, hints of blackcurrant coulis and mixed nuts. Juicy tannins on the palate with ginger snap biscuits and brandy butter.
